

New Fiber Technology Exhibition

Monday, September 29, 9:00 – Wednesday, October 1, 15:00

HALL300 & Foyer, TFT WEST

Welcome Message

An exhibition of “New Fiber Technology” will be held during the ceremony of the 70th anniversary of the Society for Fiber Science and Technology Japan (SFSTJ) and ISF2014 symposium at Hall 300 and Foyer in Tokyo Fashion Town Building West. The exhibition is being cooperated with “Advanced Fiber Material Exhibition” organized by Japan Chemical Fiber Association (JCFA).

This exhibition will be a gathering of recent information both from industry and academia; new fiber materials, advanced science and technologies for fiber and textile production, new analytical instruments for fiber and textile investigation, new chemicals for textile production are involved.

This exhibition will be open for the registrants and accompanied person of the ISF2014, registered visitors of The 2nd Advanced Fiber Material Symposium organized by JCFA and all of the visitors who are interested in fiber and textile fields.

Advanced booking is not required and it is free of charge. We look forward to welcoming you all to this exhibition.

Teruo Hori
Chairperson of the Exhibition
